A letter from the President,

Hello everyone, I hope that you are all enjoying your summer and that you are in good health. Our next meeting is on August 11th in Union City and the topic will be of interest to everyone in the public sector or construction trades. Aaron Rezendez from PGE will be giving a presentation on safely working around powerlines or excavating near gas lines. This will be the first time this year that the topic that we have chosen is not specifically related to the signs and markings field. Because of the devastating consequences of rupturing a gas line or coming into contact with a high voltage power source we felt compelled to add this topic to this years meeting schedule. This meeting will be open to anyone who wishes to attend and I encourage you to invite people from other divisions within your city or county. Safety at work is important, and we hope that you and your fellow employees will attend this excellent low cost presentation.

In October a meeting was scheduled at the ZAP Manufacturing facility, but, we will not be holding the meeting there this year and will announce the new location of the meeting shortly. Also note that the December meeting in Tracy will be held on the first Thursday of the month on 12/1/2011 instead of the second Thursday due to a scheduling conflict.

I hope that we will see you at the next meeting, and Thank You for supporting the TCSA!

Sincerely,
Chris Foley
Chapter President
